

With the recent stream of allegations of abuse, general liability policies are starting to specifically exclude this coverage at a time when companies may need it most. NAS' abuse or molestation product offers coverage for the actual or threatened abuse or molestation of clientele while in their care, custody or control.

The coverage features simplified underwriting for qualifying applicants as well as a streamlined application process that simplifies quoting and binding. The applicant who meets the program qualifications can choose options from the rate card and request to bind.
