

2017 NetGuard® Plus Cyber Liability

Our Cyber policy to meet the demands of today's small to midsize businesses (SMBs). The following coverages are available for SMBs with up to \$250MM in revenue and available on a case by case basis for companies with higher revenues.

Better. Broader. Cyber.

NAS offers a comprehensive suite of data security and privacy insurance solutions that are custom-tailored for your business. Unlike other cyber policies, NAS' **NetGuard® Plus** Cyber Liability provides a range of coverage options with flexibility to fit your clients' unique needs, including:

- ▲ Full limits on Privacy Breach Response, Voluntary Notification and Network Asset Protection. Privacy Breach Response Costs Outside the limit is also available.
- ▲ Broad Cyber Crime coverage includes coverage for Financial Fraud, Telecommunications Fraud, and Phishing Attacks. Cyber Crime sub-limit is now available up to \$250k.
- ▲ BrandGuard® coverage now included up to the policy limit on most quotes
- ▲ Dependent Business Interruption - Covers losses in the event that the computer system of an IT service provider or business process outsourcing provider goes down
- ▲ New cutting edge policy language includes broad triggers for Network Asset Protection, including system failure, operational mistakes, and acts of cyber terrorism or other cyber attacks
- ▲ Choice of breach response vendors and attorneys (with prior NAS approval)
- ▲ Option for a per-identity breach response limit instead of the typical dollar limit
- ▲ PCI DSS fines, penalties and assessments now covered up to the policy limit on most quotes.
- ▲ Unknown prior acts coverage is available

Limits Up To **\$25mil/\$25mil**

Minimum Deductible **\$500** Minimum Premium **\$750**

Lloyd's reliability is reflected in its financial ratings:
AM Best: A (Excellent) Class XV
Standard & Poor's: A+ (Strong)

Description of Coverage

NetGuard® Plus Cyber Liability provides a range of coverage options with flexibility to fit your clients' unique needs, including:

Multimedia Liability – Duty to defend coverage for third party claims alleging copyright/trademark infringement, libel, slander, plagiarism and personal injury resulting from dissemination of media material. Covers both electronic and non-electronic media material.

Security and Privacy Liability – Duty to defend coverage for third party claims alleging liability resulting from a security and privacy wrongful act, including failure to safeguard electronic or non-electronic confidential information, or failure to prevent virus attacks, denial of service attacks or the transmission of malicious code from the Insured's computer system to the computer system of a third party.

Privacy Regulatory Defense and Penalties - Duty to defend coverage for regulatory fines and penalties and/or regulatory compensatory awards incurred by the Insured as a result of privacy regulatory proceedings/investigations brought against the Insured by federal, state, or local governmental agencies, such as proceedings/investigations alleging HIPAA violations.

Breach Event Costs – Coverage for reasonable mitigation costs and expenses incurred as a result of a privacy breach, security breach or adverse media report, including legal expenses, public relations expenses, advertising and IT forensic expenses, postage, and the cost to provide call centers, credit monitoring and identity theft assistance. Also includes coverage for Proactive Privacy Breach Response Costs - public relations expenses incurred in response to a privacy breach, but prior to the publication of an adverse media report, in an effort to avert or mitigate the potential impact of such adverse media report on the Insured's reputation. Also includes coverage for Voluntary Notification Expenses - expenses incurred in notifying affected parties of a privacy breach where there is no requirement by law to do so.

BrandGuard® - Coverage for lost revenue incurred as a direct result of an adverse media report or notification to affected individuals following a security breach or privacy breach.

Dependent Business Interruption – Unlike other policies that limit coverage to interruption expenses incurred when your own computer system goes down, NAS' Dependent Business Interruption covers a business' loss of income and interruption expenses incurred as a result of a third-party service provider's system going down.

Network Asset Protection – Coverage for amounts incurred to recover and/or replace electronic data that is compromised, damaged, lost, erased or corrupted due to (1) accidental damage or destruction of electronic media or computer hardware, (2) administrative or operational mistakes in the handling of electronic data, or (3) computer crime/attacks including malicious code and denial of service attacks. Coverage also extends to business income loss and interruption expenses incurred as a result of a total or partial interruption of an Insured's computer system directly caused by any of the above events.

Cyber Extortion – Coverage for extortion expenses incurred and extortion monies paid as a direct result of a credible cyber extortion threat.

Cyber Crime – Coverage for loss of money or securities incurred due to financial fraud, including wire transfer fraud; charges incurred for unauthorized calls resulting from fraudulent use of an Insured's telephone system; expenses incurred to notify customers of phishing schemes that impersonate the Insured or the Insured's brands, products or services, and the costs of reimbursing customers for loss they sustain as a result of such phishing schemes.

PCI DSS Liability - Coverage for assessments, fines, or penalties imposed by banks or credit card companies due to non-compliance with the Payment Card Industry Data Security Standard (PCI DSS) or payment card company rules.
